Update from HBA in India

Greetings from Pastor David Dayasagar and our HBA India team!

Thank God that we have all been safe during this lockdown in India over the past month due to the coronavirus. **Our HBA leadership has prayerfully decided to provide a month's worth of groceries and supplies to all the Evangelists and their families in addition to their regular support. Also, after seeing the need of the suffering people in different villages we have extended ourselves sacrificially to supply vegetables for 250 families of the Chenchu tribe who are extremely poor hunter/gatherers in two villages in Prakasam district.**

The situation in India is becoming very severe. Not only are hundreds of thousands of poor people all across the land unable to work and therefore to feed their families, but because of fear of the coronavirus most of our local hospitals are closed and the doctors are not coming to work. We desperately need your prayers!

Please pray that God will help us in these circumstances to remain strong and safe.
